Chaitanya Gali

HI :)

I'm Chaitanya Gali , aspiring to be a UI/UX designer and i love creativity , Always ready to do something new and fun!!
I am a creative designer who understands code

Projects

Gamified Fitness Application (Smart India Hackathon)

- Conceptualized the UI/UX and core features for a fitness app that utilizes game mechanics to drive user motivation and long-term retention.
- Crafted comprehensive pitch materials and presentation slides to clearly communicate the user flow, system architecture, and value proposition for the hackathon submission.

Rasoi Kitchen Website

- Designed and developed a responsive website for a local restaurant, establishing a cohesive black and beige visual identity to elevate the brand's digital presence.
- Implemented engaging UI elements, including a custom typewriter flash animation on the landing page, to capture user attention and improve bounce rates.
